

Name _____

Activity – Angles and Their Measure

1. Label the angles. Label the first one in degrees and the second one in radians.

2. Label the angles. Label the first one in degrees and the second one in radians.

3. a) Draw an angle that measures 60°

b) List two coterminal angles, one positive and one negative.

4. a) Draw an angle that measure $\frac{2\pi}{3}$ radians.

b) List two coterminal angles, one positive and one negative (in radians).

5. Determine the angles shown in both degrees and radians (hint: will be multiple of $\frac{\pi}{6}$ or $\frac{\pi}{4}$).

a)

b)

c)

d)
